## VICE PRESIDENT & CO-TREASURER

---

### WHAT INSPIRED ME TO JOIN YOUTH FIRST

When Chevon heard the mission of Youth First, she was immediately moved to join. Chevon believes in the importance of building our youth's creativity through imagination. She understands that imagination is critical in developing a young mind.

The *Feed their Curiosity* aspect of the mission is personal to Chevon. As a child, she would read as a means to explore and expand her knowledge. As she entered her adult years, her passion for knowledge continued by furthering her education and within her overall professional development. All her life, creativity through reading has been a major factor.
